

VAPING

THE TREND, THE SIGNS, THE EDUCATION

A program for parents to learn about the latest teen trend...

Ramsey middle school students were informally polled, and their observations regarding usage fell right in line nationally. So why do kids smoke, despite all the bad publicity? Why are vapes so addictive? What else are kids putting in their vapes? Our LEAD Officer had a conversation with Smith school students and the answers will surprise you. Come join us to hear more, and to also learn some helpful tips to start a conversation with your kids. This program is appropriate for parents of teens, tweens, and all other interested parties. Marijuana will also be discussed.

February 19th,
2020

7:30 – 8:30 PM
Ramsey HS Cafeteria

All adults are
welcome
